12/2023

Dear parents,

Christmas time is upon us! It's a magical time that we always look forward to in all our EduArt kindergartens. Our goal is for children and parents to feel the festive pre-Christmas atmosphere throughout December.

At the beginning of December, an unearthly trinity visits us: Santa Claus, the devil and an angel. We understand this tradition in such a way that it brings children a positive experience. Our devils are cheerful and cheerful, and our angels are gentle and loving. Mikuláš appears as a wise old man who reminds children of moral values - the importance of friendship and helping others. For their bravery, each child will receive a small package in which they will find healthy goodies and a little attention.

During the month, meetings with parents take place in our branches, which take various forms, whether it is a traditional Santa Claus or Christmas party or workshops and workshops in which Christmas ornaments and decorations are made, cookies are baked and gingerbread decorated. It is a very pleasant afternoon spent with your parents, children and teams. There is space for sharing and spending time together outside the kindergarten program.

The traditional character of the Czech Christmas is Baby Jesus, who is also present in EduArt. In the last week before Christmas, he brings the children new tools, toys and equipment to the kindergarten. The children look forward to kindergarten again after the holidays, so that they can play with and try everything.

It is very important to appreciate all our wonderful teachers, assistants, housekeepers and in short everyone who participates in the running of the kindergartens. Therefore, within each team, we organize a pre-Christmas team building, in which there is time and space to unwind, relax and enjoy a moment with colleagues outside the kindergarten.

During this period, we do not forget the other. That is why we organize various charity projects within our kindergartens. One of them is the Shoebox project, in which you could also participate during the last month. Christmas time should be all about spending time with our loved ones and helping others. It is also one of our resolutions until 2024 - to get involved in more charitable activities.

On behalf of all EduArt kindergartens, I would like to thank you for the favor you showed us in 2023. Until the new year 2024, I wish you a lot of health, happiness and success and may all your wishes come true!

Adéla Merknerová, director of the Prague 4 - Libuš branch
